# Seal Shield SSKSV207

## Silver Seal Med Grade Keyboard Black USB

## Overview

Silver Seal Dishwasher Safe Keyboard IP68, 100% WATERPROOF, includes Silver Seal technology for antimicrobial product protection, 14K Gold-plated USB, Seal Cap, Black, USB. Limited Lifetime Warranty

**The Seal Shield keyboard is the original, medical grade, dishwasher safe keyboard used by hospitals worldwide. The Seal Shield keyboard starts with our patent pending electronic waterproofing technology. Electronic components are sealed in a watertight housing safely tucked into this award-winning keyboard solution. Enjoy True Type typing comfort from the full-travel IBM-style keys which are laser etched to prevent fading from frequent washings or even cleaning with mild abrasives. The Seal Shield keyboard features a 24K Gold-plated USB connector that will not rust or corrode from water exposure. Our exclusive Seal Cap (Patent Pending) prevent water intrustion through the cable connector when the keyboard is being washed.**

Seal Shield waterproof technology means that the keyboards can be disinfected with healthcare grade sprays, without ever being disconnected or powering down. Engineered to international waterproof standard IP-68, the Seal Shield keyboard is the ideal washable solution regardless of your preferred cleaning methods.

Don't be fooled by lower rated imitations and spill-proof solutions. Only Seal Shield technology guarantees that your keyboard is 100% waterproof, fully submersible and dishwasher safe. The Silver Seal keyboard also includes Silver Seal technology for antimicrobial product protection from mold, mildew and odor causing bacteria.
